(54) Title: TOWEL PRESENTING AND WASHING MACHINE AND A METHOD FOR OPERATING SAME

(57) Abstract: There is provided a towel presenting, washing and drying machine, including first and second spaced-apart rollers each rotatable in a clockwise and counter-clockwise sense; a bath having liquid inlet and outlet ports located between the rollers supporting a plurality of rod members for guiding a towel section in a meandering fashion in the bath; means for cleaning the towel section in the bath; at least one drying drum disposed outside the bath between the rollers, at least one motor and transmission means coupled to the rollers and the drying drum, and a controller for timely selectively operating each of the rollers and the drying drum. A method for automatically presenting a clean towel section for drying purposes and for washing and drying soiled towel sections in a towel presenting and washing machine, is also provided.
